SUBJECT: Request to Revise Clerical Error Identified in Comments Received for ORCAA Preliminary Determination NOC #23NOC1606

Dear Sara,

Olympic Region Clean Air Agency (ORCAA) received the comments from The National Parks Conservation Association, Earthjustice, and Olympic Park Advocates you sent via email at 3:51 pm PST, January 18th, 2024. ORCAA also downloaded the attachments to the comments via the provided Google Drive link.

The purpose of this letter is to notify the commenting parties that there appears to be a clerical error regarding the alphabetical nomenclature for referencing the attachments throughout the comment letter. ORCAA discovered this while reading Comment I. B. – *VOC Emissions from the Five Wood Pellet Storage Silos Are Not Included in the Permit Application* (page 15). The comment references several attachments via footnotes, such as footnote n.35: Georgia EPD Memorandum re: Emission Factors for Wood Pellet Manufacturing (Jan. 29, 2013) (Attachment O) (“Georgia EPA Memo”). Attachment O in the provided Google Drive link (filename: ‘*Attach O_Georgia Hazelhurst Permit 2019.pdf*’) appears to be a SIP Construction Permit and Title V Significant Modification Application Review, not an EPA memo as indicated by the footnote. ORCAA identified a similar issue with footnote n. 36 and n. 37.

In order to thoroughly review and consider your comments, ORCAA requests that the commenting party address and revise as necessary the clerical errors in referencing the comment attachments by no later than 4:30 pm PST, January 31st, 2024. Please be aware the revisions must only pertain to this footnote-related clerical error and the comments themselves must not be revised – revised or new comments will not be considered by ORCAA since the comment deadline has passed.

Please call our office at the phone number below if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Lauren Whybrew". The signature is written in a cursive, flowing style.

Lauren Whybrew, *ORCAA Engineer II*
